

### Description

ACCU-OPM180B Bluetooth smart power meter is our latest product which can realize Bluetooth communication with smart phone by App. With this function operators can remote control the power meter, such as data uploading, interactive operation between the 2 devices. In addition, it is the smallest power meter in the world, designed for one-hand operation. Quality metal housing with full around

### Key Features

- Bluetooth communication with smart phone
- Smallest power meter in the world, designed for one-hand operation
- Auto-calibration function
- Highlight OLED display, no interference by nature light
- Quality metal housing ,integrated rubber protection

### Specifications

Model	ACCU-101BH	ACCU-101BL
Wavelength range(nm)	800~1625	
Calibration wavelength(nm)	850/1300/1310/1490/1550/1625	
Detector type	InGaAs	
Measurement range ( dBm )	-70~+3	-50~+26
Uncertainty	±0.15dB	
Display resolution	Linearity : 0.1%; logarithm 0.01dBm	
Operation temperature ( °C )	-10~+60	
Storage temperature ( °C )	-25~+70	
Auto-off time ( min )	10	
Battery operation time ( h )	≥70	
Communication method	Bluetooth	
Power Supply	Li-Battery(built-in)	
Weight ( g )	200	
Size ( mm )	φ62 high 20mm
